Your AI recommendation report

Riverside Accountants

Report date: 26 October 2026

SAMPLE REPORT - This uses fictional data for demonstration. Real reports show your firm's actual AI visibility.

We asked AI assistants who they would recommend for clients like yours, using brand-neutral customer questions - then checked whether your firm was named.

2 of 5

customer-intent questions where at least one AI reply named **Riverside Accountants**.

Who showed up instead

Most often named instead: Northside Partners, Clearview Accounting.

Northside Partners - on "Best accountant for contractors and freelancers in Manchester, UK â list firms by name."
Clearview Accounting - on "Accountant specialising in property businesses near Manchester, UK â who should I consider?"
Northside Partners - on "Best-rated independent accountant near Manchester, UK; name actual firms."

What this means

Riverside Accountants showed up in some searches, but competitors appeared without them in others - those are the clearest places to improve.

Optional deeper next steps

Want to talk it through? Book a free 15-minute call at airecommend.co.uk/book, or email kieran@airecommend.co.uk.

See which AI models named whom - and the exact phrases used

A deeper pass breaks down each search by model so you can see who was recommended, in what words, and where you were missing.

Get a plain-English action plan for Riverside Accountants

Prioritised next steps for your locality and services - what to change first so AI assistants are more likely to name you.

Re-test after you update listings or pages

Run the same customer-intent questions again after you make changes, and compare whether you appear more often.

Each search was checked across 3 AI models (ChatGPT search, Perplexity, Gemini). A search counts if any model mentioned the business.

Snapshot (what we measured)

Location: Manchester, UK

https://www.riverside-accountants.example

Mentioned in AI replies	**40% of replies**
Composite	**42.0 / 100**
Models	**ChatGPT search, Perplexity, Gemini**

Mentioned in AI replies = the share of all individual AI replies (each question x each model) that named you. The composite index also reflects how strongly you are recommended, the tone when you are mentioned, and whether you are cited as a source - a compass, not a replica of consumer ChatGPT.

Services inferred from the site: tax, bookkeeping, limited company accounts

Questions we asked (brand-neutral)

1. What are the best accountants for a small business in Manchester, UK? Name specific firms.
2. Best accountant for contractors and freelancers in Manchester, UK â list firms by name.
3. Affordable accountant for a startup in Manchester, UK; recommend specific practices.
4. Accountant specialising in property businesses near Manchester, UK â who should I consider?
5. Best-rated independent accountant near Manchester, UK; name actual firms.
